

Onstream, the new shared services corporation created for Tasmania's water industry, began operations on 1 July 2009.

Headquartered in Launceston, with offices in Hobart and in the north-west, the organisation offers a range of services to existing and future clients in the areas of IT, payroll, human resources, governance and communications.

Database and Applications Administrator (Launceston)

The Database and Applications Administrator is responsible for administering the Microsoft SQL Server environment and databases for Onstream, the water Corporations and other clients to provide high level support to key corporate operations.

Responsibilities include:

- Administer Microsoft SQL Server Platform and associated databases.
- Develop, document and maintain database configurations, modifications and backup and recovery processes.
- Provide specialist, authoritative and consultative advice on complex SQL database, applications and platform matters.
- Assist other administrators with relevant application design and integration projects.
- Build and maintain strong client relationships.

Key requirements:

- Appropriate tertiary qualification in Information Systems or Information Technology or equivalent industry experience.
- Microsoft SQL Server 2005 or 2008 Administration Certification and/or relevant experience.
- Proven experience in the support and development of database environments.
- Proven experience in the development of technical documentation.
- Current drivers licence.
- Proven experience in the provision of exceptional client services.
- Demonstrated ability to work in a team environment.

For enquiries and a position description, please contact Sue McMahon on 1300 808 366 or email recruiting@onstream.com.au.

Applications close at 5pm on Friday 5 March 2010 and should be marked Personal & Confidential and addressed to:

Executive Manager, Human Resources
Onstream
PO Box 188
Launceston TAS 7250
